**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

Claim 14 is objected to because of the following informality:

The term "if the special purchase mode day of the date" is improper grammar.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-5, 7-11 and 14-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "dispensing number is changed" (claim 1, line 21) is ambiguous since it is unclear what claim element changes the dispensing number and what the change is based on.

The term "second step moves to a second step" (claim 1, line 26) is ambiguous since the logic fails to conform to a logical process sequence.

Art Unit: 3653

The term "greater quantity of tokens" (claim 7, line 5) is ambiguous since no basis or reference is provided to determine the range of the quantity.

The term "the dispensing number setting unit for setting the dispensing number of tokens from the token dispenser" is redundant to prior text in the claim.

The following elements lack sufficient antecedent basis:

"special purchasing mode start and end times" (claim 1, line 26; and claim 14, line 23),

"special purchasing mode referring to day of the week" (claim 1, line 28; and claim 14, line 25),

"special purchasing mode day of the date" (claim 1, line 29),

"special purchasing mode referring to the time" (claim 1, line 30; and claim 14, line 27),

"predetermined range of times" (claim 3, lines 5 and 6), and

"special purchasing mode" (claim 17, lines 3 and 4).

Appropriate correction is required.

***Allowable Subject Matter***

Claims 1, 3-5, 7-11 and 14-19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Response to Arguments***

Applicant's arguments with respect to claims 1, 3-5, 7-11, 14-19 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
